hi, Barbara. thanks for providing all that introductory material! here are some suggested edits to the epi-based QRA slides. i put the recommended changes in red. i also included 3 comment bubbles – 2 on slide 3 and 1 on slide 8; in the latter comment i recommend changing the order of slides 8 and 9. jj

Here are slides for the issues/trajectories meeting on Thursday. You all should make any changes you feel would improve them. Jennifer, I hope the intro material is helpful but make any changes that will help you present it.

We will start with the dose-response evaluation based on the NCI study by Jennifer and then move to the rat analyses by Ravi. I expect that the entire time will be spent on Jennifer's presentation however.

Thanks!

Additional slide added, and some minor corrections made to earlier.

Thanks very much Ravi. I'll add the slides for the human dose-response and send the whole thing around this afternoon. I think this is a good organization putting the NAS comments in where relevant. I think managers will like that. **Ex. 5 Deliberative Process (DP)**

Thanks, Barbara
